

## ABOUT

---

I’m a Producer with a background in Creative Technologies and a Master’s in Game Development from Abertay University. I have production experience across four games and I’m skilled in team management, project management, communication, and organization. I’ve worked with Agile, Scrum, and Kanban methodologies and tools such as Jira, Trello, and ClickUp. I’m passionate about finding effective processes that support both teams and projects, while continuously learning about people, games, and production.

## KEY SKILLS

---

- **PROJECT MANAGEMENT:** experienced in managing projects through all their development cycles
- **TEAM MANAGEMENT:** experienced in team projects and team coordination.
- **QA MANAGEMENT:** experienced in organizing, conducting and keeping track of playtesting sessions and results.
- **AGILE & SCRUM:** experienced in applying these project management methodologies.
- **JIRA/ TRELLO/ CLICK UP:** experienced in using these management tools within a team project.
- **UI & UX DESIGN:** experienced in designing intuitive, user-friendly interfaces and experiences, with a focus on usability, accessibility, user flows, wireframing and iterative design.
